NYSEG LED Street Light Conversion Program

Westphal, Susan <SLWestphal@nyseg.com>

Tue 12/11/2018 10:50 AM

To: Michael Kasprzyk <mkasprzyk@townofhollandny.com>

Good Morning Mike:

See below for updates.

New York State Electric & Gas Corporation ("NYSEG") received your request to convert the existing NYSEG owned cobra head street lights to energy efficient LED street lights through the recently launched conversion program. NYSEG would like to update you on our program implementation status.

The response to the program has been tremendous and since NYSEG received final regulatory approval, we have been working on the process of finalizing equipment specifications with suppliers, gathering an initial inventory of lights, lining up resources to assist in installation and starting to work with municipalities to discuss their LED street light choices and finalizing an agreement.

NYSEG's program is intended to be a first come, first served priority with geographic considerations. As NYSEG prepares for the conversion of the existing street lights to LED street lights in your municipality, I, as your local Account Manager, will contact you to discuss the wattage, color temperature you desire and to complete required documentation to initiate the conversion to LEDs.

Best Regards,
Sue

Merry Christmas & Happy New Year!

Holland Town Planning Board Meeting  
Wednesday January 2, 2019  
Holland Town Hall

Members Attending:  
Marty Regan, Chairman  
Nan Regan  
Karen Kline, Town Board Liaison  
Robert Weisner  
Robb Lewis  
Jennifer May  
David Waligora  
Tim Painter  
Bill Shimburski

Guests:  
Eric Smith  
Melissa Riedy

Others:  
Tom Moore  
Donna Caddell

Peggy Koss – Secretary

Marty called meeting to order at 7:30 p.m.

I. New Business:

- **Special Use Permit** – Eric Smith requested a special use permit to open a Machine Shop at 261 South Main Street.

  1. Space is currently used for a machine shop that does work for general industry and some fabricating work.

  2. There are no employees.

  3. Minimal truck traffic. Deliveries are usually Tuesday and Thursday. Trucks pull off road to deliver metal.

  4. No business sign to be displayed.

  5. Waste oil is water soluble and is mixed with sawdust to dispose of. No waste oil is left on ground or down a drain.

  6. Business hours are 7:00 am to 5:00 pm.

The Planning Board voted unanimously to recommend above special use permit with following conditions:

a. Deliveries are done off street  
b. Property to be well maintained  
c. General business hours need to be maintained  
d. Waste oils need to be disposed of properly
II. Old Business:

- **Kennel License (Special Use Permit)** – Melissa Riedy, 9360 Burlingham Road, has requested a kennel license since she has more than 3 dogs. She fosters dogs through the Buffalo Pug & Small Breed Rescue by rehabilitating the dogs and then finding suitable homes for them. She only has one foster dog at a time, but she has 3 dogs of her own. She usually only has the foster dog for a month. Foster dogs stay on a 30 foot lead when outside. Her 3 dogs are contained in her yard using electronic invisible fencing.

Neighbors attending to comment on above issue –

Tom Moore – has concerns about the title of paperwork Kennel License vs Special Use Permit and role of Zoning Board of Appeals. The lot size, the number of dogs that will be allowed under this kennel license, the barking, as well as the amount of time he was given to respond to this.

Donna Caddell – has no issue and supports this request.

Since applicant doesn’t have 3 acres of land to meet the kennel license requirements, she will have to attend a Zoning Board of Appeals meeting, (date TBA) to request a variance.

After lengthy discussion, the PB voted as follows to recommend the license be granted with the following conditions.

Yea – Tim Painter; Robb Lewis; Jennifer May; David Waligora; Bill Shimburski
Abstain – Robert Weisner
Recuse – Marty and Nan Regan

1. Only 1 dog at a time to be fostered.

2. All dogs must be contained on property at all times.

3. Any dog over 4 months old must be licensed with town.

4. Special Use Permit will be reviewed after one year.

The meeting was adjourned at 8:51 p.m.

Michael Kasprzyk
Supervisor, Town of Holland
47 Pearl Street
Holland, New York 14080

Community: Town of Holland,
Erie County, New York
Community No.: 360245
Map Panels Affected: See FIRM Index

Dear Mr. Kasprzyk:

This is to formally notify you of the final flood elevation determination for the Town of Holland, Erie County, New York, in compliance with Title 44, Chapter I, Part 67, Section 67.11, Code of Federal Regulations (CFR). This section requires that notice of final flood elevations shall be sent to the Chief Executive Officer of the community, all individual appellants, and the State Coordinating Agency, and shall be published in the Federal Register.

On September 26, 2008, the Department of Homeland Security’s Federal Emergency Management Agency (FEMA) issued a Flood Insurance Rate Map (FIRM) that identified the Special Flood Hazard Areas (SFHAs), the areas subject to inundation by the base (1-percent-annual-chance) flood, in your community. Recently, FEMA completed a re-evaluation of flood hazards in your community. On December 31, 2009, FEMA provided you with Preliminary copies of the FIRM and Flood Insurance Study (FIS) report that identify existing flood hazards in your community, including Base Flood Elevations (BFEs). The proposed BFEs for your community were published in The Buffalo News on October 20, 2010 and October 27, 2010, and in the Federal Register, at Part 67, Volume 75, Pages 55507 to 55511, on September 13, 2010.

The statutory 90-day appeal period, which was initiated on the second newspaper publication date cited above, has ended. FEMA did not receive any appeals of the proposed BFEs during that time. Accordingly, the BFEs for your community are considered final. The final rule for BFEs will be published in the Federal Register as soon as possible. The FIRM for your community will become effective on June 7, 2019. Before the effective date, FEMA will send you final printed copies of the FIRM and FIS report.

Because the FIS report establishing the BFEs for your community has been completed, certain additional requirements must be met under Section 1361 of the National Flood Insurance Act of 1968, as amended, within 6 months from the date of this letter. Prior to June 7, 2019, your community is required, as a condition of continued eligibility in the National Flood Insurance Program (NFIP), to adopt or show evidence of adoption of floodplain management regulations that meet the standards of Paragraph 60.3(d) of the enclosed NFIP regulations (44 CFR 59, etc.) by the effective date of the FIRM. These standards are the minimum requirements and do not supersede any State or local requirements of a more stringent nature.

It must be emphasized that all the standards specified in Paragraph 60.3(d) of the NFIP regulations must be enacted in a legally enforceable document. This includes adoption of the current effective FIRM and FIS report to which the regulations apply, and other modifications made by this map revision. Some of the
standards should already have been enacted by your community in order to establish initial eligibility in the NFIP. Your community can meet any additional requirements by taking one of the following actions:

1. Amending existing regulations to incorporate any additional requirements of Paragraph 60.3(d);
2. Adopting all the standards of Paragraph 60.3(d) into one new, comprehensive set of regulations; or
3. Showing evidence that regulations have previously been adopted that meet or exceed the minimum requirements of Paragraph 60.3(d).

Communities that fail to enact the necessary floodplain management regulations will be suspended from participation in the NFIP and subject to the prohibitions contained in Section 202(a) of the Flood Disaster Protection Act of 1973 (Public Law 93-234) as amended.

In addition to your community using the FIRM and FIS report to manage development in the floodplain, FEMA will use the FIRM and FIS report to establish appropriate flood insurance rates. On the effective date of the revised FIRM, actuarial rates for flood insurance will be charged for all new structures and substantial improvements to existing structures located in the identified SFHAs. These rates may be higher if structures are not built in compliance with the floodplain management standards of the NFIP. The actuarial flood insurance rates increase as the lowest elevations (including basement) of new structures decrease in relation to the BFEs established for your community. This is an important consideration for new construction because building at a higher elevation can greatly reduce the cost of flood insurance.

To assist your community in maintaining the FIRM, we have enclosed a Summary of Map Actions to document previous Letter of Map Change (LOMC) actions (i.e., Letters of Map Amendment (LOMAs), Letters of Map Revision (LOMRs)) that will be superseded when the revised FIRM panels referenced above become effective. Information on LOMCs is presented in the following four categories: (1) LOMCs for which results have been included on the revised FIRM panels; (2) LOMCs for which results could not be shown on the revised FIRM panels because of scale limitations or because the LOMC issued had determined that the lots or structures involved were outside the SFHA as shown on the FIRM; (3) LOMCs for which results have not been included on the revised FIRM panels because the flood hazard information on which the original determinations were based are being superseded by new flood hazard information; and (4) LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures cannot be revalidated through an administrative process like the LOMCs in Category 2 above. LOMCs in Category 2 will be revalidated through a single letter that reaffirms the validity of a previously issued LOMC; the letter will be sent to your community shortly before the effective date of the revised FIRM and will become effective 1 day after the revised FIRM becomes effective. For the LOMCs listed in Category 4, we will review the data previously submitted for the LOMA or LOMR request and issue a new determination for the affected properties after the revised FIRM becomes effective.

The FIRM and FIS report for your community have been prepared in our countywide format, which means that flood hazard information for all jurisdictions within Erie County has been combined into one FIRM and FIS report. When the FIRM and FIS report are printed and distributed, your community will receive only those panels that present flood hazard information for your community. We will provide complete sets of the FIRM panels to county officials, where they will be available for review by your community.

The FIRM panels have been computer-generated. Once the FIRM and FIS report are printed and distributed, the digital files containing the flood hazard data for the entire county can be provided to your community for use in a computer mapping system. These files can be used in conjunction with other thematic data for floodplain management purposes, insurance purchase and rating requirements, and many
other planning applications. Copies of the digital files or paper copies of the FIRM panels may be obtained by calling our FEMA Map Information eXchange (FMIX), toll free, at 1-877-FEMA MAP (1-877-336-2627). In addition, your community may be eligible for additional credits under our Community Rating System if you implement your activities using digital mapping files.

If your community is encountering difficulties in enacting the necessary floodplain management measures required to continue participation in the NFIP, we urge you to call the Director, Mitigation Division of FEMA in New York, New York, at (212) 680-3600 for assistance. If you have any questions concerning mapping issues in general or the enclosed Summary of Map Actions, please call FMIX at the telephone number shown above. Additional information and resources your community may find helpful regarding the NFIP and floodplain management, such as The National Flood Insurance Program Code of Federal Regulations, Answers to Questions About the NFIP, Frequently Asked Questions Regarding the Effect that Revised Flood Hazards have on Existing Structures, Use of Flood Insurance Study (FIS) Data as Available Data, and National Flood Insurance Program Elevation Certificate and Instructions, can be found on our website at http://www.floodmaps.fema.gov/fmd. Paper copies of these documents may also be obtained by calling FMIX.

Sincerely,

Luis Rodriguez, P.E., Director
Engineering and Modeling Division

FINAL SUMMARY OF MAP ACTIONS

Community: HOLLAND, TOWN OF  Community No: 360245

To assist your community in maintaining the Flood Insurance Rate Map (FIRM), we have summarized below the effects of the enclosed revised FIRM panels(s) on previously issued Letter of Map Change (LOMC) actions (i.e., Letters of Map Revision (LOMRs), Letter of Map Revision based on Fill (LOMR-Fs), and Letters of Map Amendment (LOMAs)) that will be affected when the revised FIRM becomes effective on June 7, 2019.

1. LOMCs Incorporated

The modifications effected by the LOMCs listed below will be reflected on the revised FIRM. In addition, these LOMCs will remain in effect until the revised FIRM becomes effective.

2. LOMCs Not Incorporated

The modifications effected by the LOMCs listed below will not be reflected on the revised FIRM panels or will not be reflected on the revised FIRM panels because of scale limitations or because the LOMC issued had determined that the lot(s) or structure(s) involved were outside the Special Flood Hazard Area, as shown on the FIRM. These LOMCs will remain in effect until the revised FIRM becomes effective. These LOMCs will be revalidated free of charge 1 day after the revised FIRM becomes effective through a single revalidation letter that reaffirms the validity of the previous LOMCs.

3. LOMCs Superseded

The modifications effected by the LOMCs listed below have not been reflected on the Final revised FIRM panels because they are being superseded by new or revised flood hazard information or the information available was not sufficient to make a determination. The reason each is being superseded is noted below. These LOMCs will no longer be in effect when the revised FIRM becomes effective.

1. Insufficient information available to make a determination.
2. Lowest Adjacent Grade and Lowest Finished Floor are below the proposed Base Flood Elevation.
3. Lowest Ground Elevation is below the proposed Base Flood Elevation.
4. Revised hydrologic and hydraulic analyses.
5. Revised topographic information.
6. Superseded by another LOMC.

4. LOMCs To Be Redetermined

The LOMCs in Category 2 above will be revalidated through a single revalidation letter that reaffirms the validity of the determination in the previously issued LOMC. For LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures is no longer valid, the LOMC cannot be revalidated through this administrative process. Therefore, we will review the data previously submitted for the LOMC requests listed below and if appropriate issue a new determination for the affected properties after the effective date of the revised FIRM.

HOLLAND DOG CONTROL OFFICER MONTHLY REPORT
MONTH OF DECEMBER 2018

12-8-18 I went and looked for the two dogs at Pine Valley and checked with resident who said one belonged to man at Pine Valley. Didn’t know who owned the other dog. I will continue to look for other dog and its owner. I did find who owned the black dog. Owner was not home. I will check to see if he got his dog licensed.

12-10-18 Whitney Road resident called. She is missing her fluffy, white, Pyrenees dog named “Molly.” She left her phone number in case I get a call regarding Molly.

12-12-18 Granddaughter of Whitney Road resident who is missing her white, female, great pyrenees dog. No tags, no micro-chip. Missing since Monday. Explained to her we have not received any calls of anyone finding the dog as of yet.

12-20-18 Gentleman from Lancaster called and reported he lost his pit bull, black/white, microchip, on Olean Road.

12-21-18 Savage Road resident called stating she picked up black lab and asked that I come to take the dog.

12-21-18 I went to pick up the black lab from Savage Road.

12-23-18 I called the owner of the black lab and checked if he got his dog licensed.

12-24-18 Owner came and got his dog.

12-30-18 Call from Sheriffs. Dog left out and barking all day on So. Protection Road.
HOLLAND DOG CONTROL OFFICER MONTHLY REPORT
MONTH OF DECEMBER 2018

12-30-18 Went to So. Protection Road. Explained to owner that something needs to be done about dog being left out and barking all day.

12-30-18 Received call from E.C. Sheriffs. Said they understand there are three pit bulls in the road (Church & Hunters Creek Roads) chasing cars and barking.

12-30-18 I went to check on pit bulls chasing cars and barking. Found where the dogs were. Dogs were back at home and secured.

12-31-18 I received a call from EC Sheriffs. Asked that I meet them at Church Road & Vermont St. residence. Said there are dogs left in house without food or water. They asked that I come and get the dogs.

12-31-18 I went to meet with Sheriffs on Church Road. There were two dogs at the residence. No one was at the home. The one dog appeared to just having had puppies; however the puppies were gone. The Sheriffs asked that I take the two remaining dog to my kennel; which I did.

12-31-18 Call from Town Official regarding dogs left outside, on Church Rd and Vermont. Called Town Official back; explained I had just picked dogs up.
